The Mission of CNF is to raise awareness, provide education, and fund research for the chronic illness, autoimmune hepatitis. We also provide educational support and resources for a medically challenged college student.

In previous years we addressed topics that are continuous extensions and challenges of having a chronic illness. We tackled "The Caregiver's Journey", dispelled myths of "The Transplant Journey", and we also recognized individuals with autoimmune hepatitis.

This year's focus will be mental health awareness. Our goal is to educate, provide resources, and recognize organizations in the mental health space. We will also acknowledge and highlight individuals dealing with "the weight of the world" and managing everyday mental health challenges.

We would be honored to have you partner with the Courageously Nicole Foundation this year as we continue to champion the cause with Emory University in researching autoimmune hepatitis and collaborate with Children's Health Care of Atlanta and beyond in providing scholarships for college students that have a daily walk with medical challenges. Furthermore, continue to bring awareness and resources to the community.

Your generous contributions have allowed CNF to assist Dr. Nitika Gupta of Children's Hospital to publish desperately needed research findings and award over 20 scholarships to students.
